Do you have 1, 5, 10, or 20+ employees? Do you know which employment law practices are required to ensure compliance with federal and state regulations? Have you ever heard of Fair Labor Standards Act (FLSA), Family Medical Leave Act (FMLA), Americans with Disabilities Act (ADA), Age Discrimination in Employment (ADEA), and Equal Employment Opportunity (EEO)? If so, do you know what they mean and how critical they are to the business owner's sustainability? Your participation in this workshop is guaranteed to enhance your knowledge and application of employment laws. A sample human resources audit tool will be provided to the small business owner so that they are able to discern the best course of action relevant to their business needs. Ultimately, business owners will learn under which circumstances employment law compliance is required to facilitate productivity and reduce liability.
